DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14, 15-23, 31-32, 33-38 and 39-41 drawn to a flexible image, classified in class 250, subclass 370.11.
- II. Claims 24-30, drawn to a method of using a flexible imaging apparatus, classified in class 378, subclass 87.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process (claims 24-30) can be practiced with a flexible imager without a scintillator using x-rays.
